🪪 Profile

I am a passionate and skilled Front-End Developer with a comprehensive education from Code Academy, where I completed the Front-End Developer program. With a strong foundation in front-end technologies, I am dedicated to creating efficient and user-friendly web applications. My expertise includes HTML, CSS, JavaScript, React, and various other frameworks and tools essential for modern web development.

💼 Professional Experience

Learning Sandbox   10/2022 – 06/2024
Motion Designer   Remote
  - Developed JavaScript expressions to enhance motion graphics and animations.
  - Converted subtitles from SRT files into HTML format for web integration.
  - Collaborated with the development team to ensure animations were optimized for front-end implementation.

Freelance   05/2023 – present
Front-end developer   Cape Town,
                                                                                      South Africa
  - Developed responsive and visually appealing web applications using HTML, CSS, JavaScript, and React..
  - Wrote and executed unit tests with Mocha, Chai, and Jest to ensure code quality, functionality, and reliability in front-end applications.
  - Integrated APIs and Redux into web projects, enabling dynamic content, seamless third-party service interactions, and enhanced user interactivity.

📂 Projects

A Brief History of Race Correction in Spirometry SCROLLABLE ↗   12/2023 – 01/2024
https://www.labxchange.org/library/items/lb:LabXchange:b451b8fa:lx_simulation:1? fullscreen=true
  - Use javascript expression to make json animation
  - Upload to platform using html

The Influence of Outdoor Spaces on Health Outcomes ↗   02/2024 – 03/2024
https://www.labxchange.org/library/items/lb:LabXchange:aa176154:lx_simulation:1? fullscreen=true
  - Use javascript expression to make json animation
  - Upload to platform using html

Editdoo ↗   06/2024 – present
https://editdoo-motion-design.vercel.app/
  - Developing a responsive and user-friendly web application from scratch using HTML, CSS, and JavaScript, focusing on delivering a seamless user experience.

Porfolio Website ↗   07/2024 – present
junain-portfolio.vercel.app
  - Creating a fully responsive and intuitive web application from the ground up using HTML, CSS, and JavaScript, with an emphasis on providing an engaging and smooth user experience.

Jammming ↗   09/2024 – present
https://jamming-lyart.vercel.app/
  - Developed a React web app integrating the Spotify API for music discovery and playlist management
  - Implemented Spotify OAuth for user authentication and account linking
  - Enabled song search functionality with real-time display of results using Spotify's search API
  - Built features for creating, modifying, and managing Spotify playlists directly from the app
  - Allowed users to combine songs from multiple playlists and sync updates with their Spotify account

- Used React hooks for efficient state management and ensured a responsive design across devices

Greyscale ↗ 11/2024 – present
https://grayscale-five.vercel.app/
- Developed an e-commerce application using React and Redux for state management.
- Implemented secure payment processing with Stripe Api integration.
- Built a scalable backend using Express.js with RESTful APIs for product, cart, and order management.
- Designed a responsive and user-friendly UI, ensuring seamless user experience.
- Integrated a server-side database for product data and order storage.
- Ensured cross-origin access using CORS and implemented environment variables for security.

🧠 Skills

| Illustrator | Css | Html | Javascript | Airtable | Asana | Slack | Mocha | Chai |

| React | Redux | Jest | Git |

🎓 Education

High School Diploma 01/2010 – 12/2014
Parow High School Cape Town, South Africa
